

Please rephrase this WiFi notice to make it more clear and easy to read.

WI Fi Information

We have Wi Fi throughout the building. The problem you might encounter is that you will be bumped from the original Wi Fi signal your smart phone detects. Your smart phone will then detect a stronger signal after you leave the lobby in the gym. The original signal from the lobby will be lost. Your smart phone will detect another signal from the Parisi area

THE SOLUTION TO THIS PROBLEM:

There is an app on your phone that should be set to picking up the strongest signal that is in a particular area. Once this is done you should have no problem. *(that's only if, you stay in that particular area.)*
